

Business Continuity Plan

August 2007

Business Continuity Plan

MVision Private Equity Advisers (MVision) has developed a Business Continuity Plan (Plan) that addresses how we will respond to events that significantly disrupt our business (Disasters). Our goal is to be able to continue to represent our Clients to the best of our ability during and after a Disaster, understanding that the timing and impact of any Disaster are unpredictable and that our Plan must necessarily be flexible.

Contacting Us

If after a Disaster you are unable to reach one of our offices, you should try to contact us through email and/or by calling our other office at the following numbers:

London: +44 207 491 8500
New York: +1 212 573 0915

We have made arrangements that allow our staff to work from alternative locations in the event they are unable to access Firm offices. In the event of a Disaster that only affects one office, we will leave instructions at our other office describing how our staff can be reached. Alternatively, we will leave instructions for Clients on Websites, on voice mail or using other means to provide access to us.

Protection of Documents and Data

We have adopted procedures for backing up electronic data and copying or protecting hard copies of documents that we believe are unique and/or critical to our business.

Business Continuity

Our Plan provides for notification to regulators, and contacts with our banks or other financial institutions with which we have relationships, so that we can continue to do business in the event of a Disaster. Although we believe that it is unlikely, if a Disaster is so severe that it prevents us from remaining in business, we will notify our Clients as soon as possible and return to them materials in our possession, if any, that belong to them.
